

HEAT HELPER FUND

HELPING THOSE IN NEED

Established by Loup Power District and administered by Columbus Emergency Relief, Inc., **Heat Helper Fund** helps individuals in our communities who have nowhere to turn for warmth in winter.

Some families face the unenviable prospect of shivering through the winter. Whether it's because of the state of the economy, a rise in gas prices, health problems, or other circumstances beyond their control, people in our communities may find themselves unable to pay their energy bills. The need is great. Please consider helping to provide warmth for the disadvantaged in our communities.

The money will be handled locally through Columbus Emergency Relief, Inc. 100% of each donated dollar goes directly to help pay heat-related bills throughout the Columbus and Platte County area and those served by Loup Power District.

Thank you for your consideration of this special, needed program. All donations may be tax deductible.
