

ENERGY
SAVING

ENERGYWISESM

Use less. Spend less. Do more.

Thank you for your participation in EnergyWiseSM incentive programs sponsored by NPPD in partnership with Loup Power District.

Your partnership in these programs provides opportunities to save energy and money while helping the environment. The long-term value of energy efficiency remains as important as ever.

All projects must be installed and operational during the 2018 calendar year to be eligible for the corresponding EnergyWiseSM program year incentives.

2018 PROGRAM CHANGES

HIGH-EFFICIENCY HEAT PUMP PROGRAM

Variable Capacity Air Source Heat Pumps

- Eligible for \$600 incentive
- Any SEER, EER or HSPF rating qualifies
- Be sure to use current application and mark the box to indicate whether it is a variable capacity or not

Multi-stage Air Source Heat Pumps*

- More than 2 stages Are not considered variable capacity under this program
- Eligible for \$400 incentive
- Any SEER, EER or HSPF rating qualifies

**This incentive is subject to further evaluation*

COMMERCIAL & INDUSTRIAL PRESCRIPTIVE AND CUSTOM LIGHTING

- Require DesignLights Consortium (DLC) listing for all retrofits and replacements
- Refrigerated case display retrofits limited to 5' & 6'
- Eliminate \$5 recessed can retrofit incentive
- Custom lighting projects require new fixtures – no retrofits
- Custom lighting projects require pre-approval before projects begin
